IV. NEW BUSINESS:
   1. Information/Discussion:  PSAP Regionalization Implementation Plan Update.
      Ms. Bonnie Maney from MCP stated the PSAP Regionalization Implementation Plan is about 50% completed. She added the Board should have received all the contacts on the project team along with an email from Bonnie regarding the Systems Inventory Master Worksheet and the Employee Integration Crosswalk. This form has a deadline to be completed and returned to Bonnie of December 30, 2021. The Systems Inventory Master Worksheet is to log and inventory all of the technology and systems currently in place, where they’re at in their life cycle to determine if they would be viable to transfer to a new consolidated center or if they have to be replaced. She added how it’s very important to report all of the ancillary systems and technology that reside in each of the PSAPs. As an example, the security cameras and other systems that the dispatchers need to have access to.

      A key item that needs special attention in the inventory is the Employee Integration Crosswalk which is a document used to lay the foundation for the Human Resources component of the consolidation implementation plan. It covers everything from salary ranges to personnel policies and everything else related to the workforce. Bonnie explained how the form has a column for each of the agencies to fill-in their respective policies and information and that there’s also a column labeled “Transition”. That is where all PSAP information will be combined into the plan.

      She mentioned how the expected month for the Implementation Plan to be completed is February of 2022.
